## SHORT TERM

208

Sl No	Recommendation	Action Taken
1	<p>The department of Archaeology should list all monument sites and put in public domain and ask for additions/corrections wherein each monument's description may be made in a standard format. Listing of monuments should be based on historical, architectural, archaeological and cultural significance. A senior officer may be made responsible for inspection of all additions and corrections and reporting to Commissioner. This will ensure that a complete data base of all monuments of archaeological importance is available with the State and with the participation of people.</p>	<p>After identification of heritage places through subject-wise analysis and land survey of important places the inventories are being prepared as a key management tool. The documentation of protected monuments spread over in Bengaluru, Mysuru, Belagavi Divisions have been completed. In Kalaburagi Division totalling 196 State protected monuments have been included in the declared list out of which the documentation of 116 monuments has been completed. The documentation of the remaining 80 monuments is likely to be completed within two months. The documentation of monuments located in Hampi &amp; Aneundi in Kalaburagi Division has been carried out by the Hampi World Heritage Management Authority with the grants provided by the department.</p> <p>The documentation of 14 heritage areas viz., Banavasi, Bangalore Urban, Malakheda, Nagavi, Badami, Lakkundi, Talakadu, Ihole, Halebeedu, Balligavi, Melukote, Sannati, Belur, Kamatagi has been completed.</p> <p>The Archaeological Survey of India is also carrying out the documentation of unprotected and protected monuments in Karnataka so as to prepare National Registry under National Mission on Monuments and Antiquities.</p> <p>The state protected monument list has been put in Departmental website/Public domain.</p> <p><a href="http://www.karnatakaarchaeology.gov.in/Files/STATE%20PROTECTED%20MONUMENT%20LIST%20UPDATED.pdf">http://www.karnatakaarchaeology.gov.in/Files/STATE%20PROTECTED%20MONUMENT%20LIST%20UPDATED.pdf</a></p>
2	<p>Classification of monuments and sites on the lines of ASI (in order of importance from tourism, economic and social points of view) may be done by the department.</p>	<p>The monuments, sites and antiquities are being documented to create a national database through National Registry under National Mission Monuments and Antiquities which will serve its realistic purpose.</p>

3	KAD should spell out criteria for prioritization of conservation and maintenance while drawing annual /action plans.	Action is being taken for prioritisation of conservation work spread over in Karnataka with a limited financial assistance.
4	For clearing of encroached sites/ monuments/ surroundings of monuments, KAD should approach the Deputy Commissioner concerned and with him to work together to evict encroachments.	Wherever encroachment occurs the eviction of encroachment will be done as per the rules with the help of District Administration.
5	KAD should explore the feasibility of increasing its revenue through collection of fees for major monuments sites and museums with a very small and token entrance fee of Rs. 2/- or Rs.5/-.	Action will be taken in this regard.
6	Heritage sites should be got surveyed and marked to prevent encroachments.	The survey of 14 heritage areas has been completed.

**LONG TERM**

<b>Sl No</b>	<b>Recommendation</b>	<b>Action Taken</b>
1	The funds earmarked for each and every monument is insufficient as there are many archaeological sites and monuments needing restoration. To restore these monuments KAD may draw a perspective action plan for planned maintenance.	<p>The department took note of this point and sought a grant of Rs.100.00cores under the 13th Finance commission from the Government of India. However there is no grant under 14<sup>th</sup> finance commission forthcoming.</p> <p>The Department will prepare and furnish budget proposal for higher grants to the Government of Karnataka.</p> <p>Every year the Department is submitting the Action Plan for seeking grants for conservation of monuments/ annual maintenance of monuments.</p> <p>Action has been taken in priority basis to conserve the monuments under the available grants.</p>
2	All entry fee collected for a particular archaeological site/monument may be kept as a corpus fund and used to maintain the site/monument as convergence with funds of 12 <sup>th</sup> Finance Commission.	The feasibility will be looked into.
3	Age of the structure, its special value in terms of architecture and archaeology and cultural significance, relevance to the history and also tourism, should be given weight age in protection and conservation;	Preparation of conservation plan for each of the state protected monuments including condition mapping overlaid on the 2D/3D drawings above structural assesement of the monument, conservation strategy, including works of prioritization, identifications of problems and issues will be undertaken in due course.
4	In addition to repairs to the structures, it is also important to develop surrounding area with landscaping and have facilities for tourists (particularly toilets, vehicle parking and food), so that they come in more numbers and thus may add to revenue.	<p>The surrounding some area of the monument had been landscaped and garden lay down and regular maintenance is being carried out.</p> <p>Ex: 1. Harnahalli, Channakeshava temple.  2. Kittur fort area.  3. Srirangapatna fort area.  4. Sri Siddeshwara temple at Mulagunda tq, Gadag District.  5. Government Museum (Heritage</p>

		Building) Bengaluru, Kalaburagi, Mangaluru, Srirangapatna, Yalandur. 6. Varadaraja temple at Hangala, Gundlupete taluk, Mysuru District.
5	Community involvement should receive adequate consideration at every stage of planning, execution, supervision and protection of monuments and sites.	Steps will be taken to involve local communities in protection of the monument and sites.
6	Efforts should be made by KAD to do detail protection and conservation and maintenance ensuring convergence with other programmes, more importantly, departments involved in roads and connectivity development so as to ensure easy access to visitors and tourists.	This point will be followed wherever possible.
7	KAD should work with Departments of Tourism, DC, RTO, SP, PWD, ZP, KSRTC, etc. to promote visits by tourists to Archaeological monuments and sites.	Yes. It will be taken up with other Departments.
8	KAD should contemplate having an Archaeological Tourism Board in each district.	District Tourism will be asked to consider connotation and promotion of Archaeology sites an ultimately this will lead to Tourism promotion.
9	The Karnataka Ancient and Historical Monuments and Archaeological Sites and Remains Act 1961 may be suitably amended so that offences related to damaging an archaeological site/monument, its encroachment and theft of antiques has a more deterrent punishment than presently available in law.	Action will be initiated.

## RECOMMENDATION REQUIRED IN CHANGE IN POLICY

207

Sl No	Recommendation	Action Taken
1	Seeing the importance of safeguarding the heritage and in the better interest of protecting the Monuments, KAD can explore an option of going for PPP mode of understanding.	The Department has been already involved in the Public, Private, Partnership (PPP) mode, through Dharmasthala Dharmothana Trust which is the main partner. Private persons, Firms and foundations are also engaged in such ventures.
2	Maintenance and protection of sites and monuments should not be responsibility of KAD only. Instead, a group of concerned departments like PWD, Transport, Tourism and others may also be involved with KAD taking the lead.	As far as maintenance and protection of monuments is concerned the department is already working with the assistance of the Department of Tourism, Government of Karnataka. The involvement of other Departments will be looked into as and when it is feasible.
